TPE pipe joint seals for non-pressure waste water and drainage – MATERIAL

TECHNICAL SPECIFICATION

Product characteristics

The products as specified in the table below fulfil the requirements of BRL 2020-1 "TPE pipe joint seals for non-pressure waste water and drainage - MATERIALS". BRL 2020-1 covers the material requirements of EN 681-2 "Elastomeric Seals-Material requirements for pipe joint seals used in water and drainage applications-Part 2: Thermoplastic Elastomers".

Specification

Type TPE material	Nominal hardness in IRHD
TPE Sarlink 9156 B	60

MARKING

The products are marked with the KOMO[®]-mark.

The following marks and indications must be provided on each product and product packaging in a clear, legible and indelible way:

- KOMO logo (or KOMO[®] word mark) with certificate number.
- name of manufacturer or the deposited trade mark;
- the year of manufacturing and preferably the quarter;
- the type of TPE in a letter code according to the nomenclature used in ISO 18064; e.g. TPE-V;

TIPS FOR THE USER

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

if you should reject a delivery on the basis of the above, please contact:

- Teknor Apex B.V.

and, if necessary:

- Kiwa Nederland B.V.

For the proper storage, transport and processing consult the instructions of the certificate holder.
